SPELL BEE LEVEL 3 EXAM

On 10.02.2026, I participated in the Spell Bee Level 3 Exam (National level). It was an amazing opportunity, but it felt like carrying a huge load on your head. However, writing the exam was interesting. The exam tested my English in topics like phonetics, choosing the right meaning, and reading comprehension. Overall, it was instrumental to test myself, and I hope I will compete at the International Level as well.

CLASS ASSEMBLY – GRADES 8 AND 9

The Grade 8 and 9 students conducted a vibrant and meaningful assembly on International Mother Language Day, celebrated on February 11th. The program was confidently hosted by talented comperers and began with a soulful prayer in Telugu, Tamil, and English, highlighting linguistic diversity. A Thought for the Day encouraged respect for all languages, followed by news segments covering sports, national, international, and school updates. A powerful skit titled “Beyond Words” conveyed unity through language. Our Principal shared an inspiring message on preserving mother tongues. Certificates were distributed, and the assembly concluded with a vote of thanks and the National Anthem.

ASSESSMENTS

During our Formative Assessments and Mock exams, we had the opportunity to assess ourselves and understand our current level of preparation and performance. This helped us identify areas for improvement and strengthen our weaknesses. Additionally, these assessments encouraged us to develop better study habits and manage our time more efficiently and effectively. Overall, these exams helped us become more responsible, organised, and focused in our academics.

CLUBS

On 26th February 2026, students from Grades 6 to 9 enthusiastically participated in the **Diet and Wellness Club** activity, which aimed to promote healthy eating habits and awareness about balanced nutrition. Students prepared a wide range of nutritious and wholesome dishes, including refreshing drinks, pastries, rolls, sandwiches, and healthy snacks– displaying creativity and effort. The dishes were tasted and appreciated by the Chief Guest, Mr Saravanan, CEO of MasterJEE, and Mr Nagarajan, the Principal, whose encouraging feedback motivated the students. Participants also shared their dishes with teachers, creating a joyful and lively atmosphere. The activity was enjoyable, educational, and a truly enriching experience for all.

Adhithiya

The **Creative Hive Club** recently organized an exciting scavenger hunt for students in our school. In this activity, participants were given clue papers that guided them to search for specific objects and locations around the campus. Each clue required careful thinking, sharp observation, and teamwork to solve correctly. The event not only encouraged students to explore their surroundings but also helped develop problem-solving skills and cooperation. The atmosphere was filled with excitement and determination as teams worked together to complete the challenge successfully and confidently. Overall, the scavenger hunt was a successful and memorable experience for everyone involved.

During our **Eco Club** activity at school, we did an interesting and useful task. First, we reviewed the best digital flower portfolios made by Genesia from Grade 7 and Sai Varshini from Grade 8. After that, we were divided into groups. Each group received a checklist with pictures of flowers from all around our school campus. We had taken those pictures ourselves in the previous club activity. Our task was to locate the flowers and note down where we found them. It was an enjoyable learning activity.

TEACHER’S MESSAGE

Character shapes who we are, and resilience shapes who we become. True strength is shown not in easy moments, but in how we respond to challenges. When students act with integrity and learn to rise after setbacks, they build confidence, maturity, and the foundation for lifelong success.
